ADVICE IT YOUR FRIEND!

Doors, the first sense of the spaces where we live or the places that live are the starting point of the designs. H-Flachs MDF doors with its honeycomb core add a fascinating atmosphere to spaces thanks to its unique models and high standards, inspiring the designers and completing the designs.

Universal design with the centrally positioned lock. Doors have three hinges that can be set to make the doors left or right.

Architraves are designed to cover the gap between wall and door frame in 100% matching colour to door leaf.

Door frame is made in universal construction for left or right door openings.

A product has to be safe at 360°. For this reason only strong and environmental friendly and non-hazardous materials are used in the production of our doors and our frames.
